

Clinical Documentation Policy

Care360 Health System | Confidential Clinical Record

Patient ID: N/A (Policy)

Date: 2026-02-15

Section 1: Policy Statement

All clinical care must be documented accurately, completely, and in a timely manner to support patient safety, continuity of care, and regulatory compliance.

Section 2: Timeliness

Progress notes must be completed within 24 hours of the encounter. Discharge summaries must be finalized within 48 hours of discharge. Verbal orders must be authenticated within 48 hours.

Section 3: Content Standards

Documentation must identify the patient by full name and patient ID, include the date and time of service, the author, and be legible and free of unapproved abbreviations. Each entry must support the diagnoses and services billed.

Section 4: Amendments and Corrections

Corrections must preserve the original entry, be clearly labeled as an amendment, and include the date, time, and author. Late entries must be identified as such and reference the original date of service.

Section 5: Confidentiality

All records are confidential and access is limited to authorized personnel with a legitimate treatment, payment, or operations need. Access is audited in accordance with privacy regulations.
